                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           OM protein - protein search, using sw model
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             length: 0

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           Sasanı
```

RESULT 13

light meromyosin

```
A;Genome: nuclear
A;Genome: nuclear
A;Genome: nuclear
A;Roto: starch phosphorylase
C;Function:
C;Function: catalyzes the formation of glucose 1-phosphate from polyglucose
C;Superfamily: phosphorylase
C;Superfamily: phosphorylase
C;Keywords: chloroplast; glycosyltransferase; hexosyltransferase; phosphoprotein;
F;1-43/Domain: transit peptide (chloroplast) #status predicted <TNP>
F;44-955/Product: starch phosphorylase #status predicted <MAT>
F;44-955/Product: starch phosphorylase #status predicted <MAT>
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             starch phosphorylase (EC 2.4.1.1) precursor - C;Species: Ipomoca battatas (sweet potato) C;Date: 16-Jul-1999 #sequence_revision 16-Jul-C;Accession: T10947 R;Lin, C.T.; Yeh, K.W.; Lee, P.D.; Su, J.C.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                A;Residues: 1-1992 <WIL>
